

OpenAI Integration Test Document

This is a test document for validating the Chat-To-PDF application.

Document Information:

- Type: Integration Test PDF
- Author: Kateryna Kalashnykova
- Date: October 28, 2025
- Purpose: End-to-end testing of OpenAI integration

Technical Details:

The application uses GPT-4o-mini for answer generation.

It combines FAISS vector search with keyword matching.

The system implements RAG (Retrieval-Augmented Generation).

This document validates that the complete workflow functions correctly.
